

Light Source - **LPD30**

Deuterium Light Steady Power Supply

For use with the LHD30 Deuterium light source to provide a high and steady current. Output power: 20 - 50 W. Output current: 0.2 - 0.5 A. Output voltage: 60 - 110 V. Output current and its maximum excursion: $\pm 0.05\%/h$. Maximum blazing voltage: 350 V.
